How about clearing out old inventory in your home? Or are crafts your favorite things?

Here is an opportunity to connect with neighbors, to create a discussion over what you have for sale!

Or if you have a lot of items you want to mark down, you may want to consider setting up at a flea market and simply put all of your sale items out for the event.

All items discussed here must not be drugs, contraband, illegal, guns or weapons or items from a commercial business.

If you have a lot of craft items you want to mark down, you may want to consider arranging sale at a flea market. Here are two local sites.
